FRIDAY APRIL 4th 1941

NUMBER 49

## Funeral Services For Harding Brewerton

The Stake House was filled to capacity Monday afternoon for the funeral services of Harding Brewerton, native son of Raymond, who passed away last Friday in the Lethbridge Hospital. People were present from all points in Southern Alberta, from as far away as Calgary, showing the esteem in which deceased and family is held.

Elder J. G. Snow of the First Ward Bishopric was in charge of the service. The choir was conducted by Ira McBride with Roi Stone at the console. The beautiful casket and the rostrum were banked with floral tributes from the friends and relatives of deceased.

"Oh My Father" was the opening song and Patriarch O. H. Snow offered the invocation followed by the singing of "I Need Thee Every Hour."

Elder T. O. King, the first speaker, told of his 38 years acquaintance with the father of the Brewerton family and the family, and said he doubted if there was a more loving and congenial family in the district than this. Throughout their entire residence here they had been interested in each other's welfare and had a fine spirit of service. He paid tribute to deceased for his attention to his own family and also his aging father. In church service they were always ready to do their share. Deceased had a son on a mission in South America now, his father having advised him to leave a good position in the bank and take this mission. We shall all miss his smile and his happy word. His actions will remain a pleasant memory with us for many years, and his love and tenderness should be a comfort to his wife and children in their sorrow.

Frank Taylor and Co. sang "Lord I Pray."

Elder Heber F. Allen of the Stake Presidency had known the family for 34 years or more and had been intimate with the boys through all those years. He read the poem "About Ben Adam" and stated that the sentiments of this poem, love for fellow men fitted deceased very well as he was always anxious to serve. He spoke of the Latter-Day Saint belief respecting the resurrection and life after death, and said it was our understanding of these teachings that took the edge off the pain of death and enabled us to look ahead with faith in our Creator and the future.

Elder Snow expressed the appreciation of the Ward officers for the Brewerton family and said that Harding would be missed in his ward, and endorsed all that had been said. On behalf of the family he thanked all who had in any way assisted during the illness and death of a loving husband and father.

Frank Taylor and Co. sang "I Am With Thee" and Bishop L. L. Palmer offered the benediction.

A large cortege followed the remains to the cemetery where interment was made in the family plot.

Another 1c. per pound tax on sugar, imposed by the Dominion Government at the first of the week will make our 10 lb. sack about 95 cents now and the 100 somewhere about \$8.35 locally.

At the Rotary meeting Monday J. W. Evans was speaker and gave a very interesting talk of Yugo-Slavia and her people, and the strategic place she held in the present theatre of war in Europe. Because of a number being at Conference and some still on the sick list, the attendance was quite small.

### NOT MUCH FIELD

### WORK YET

Some field work is being done, but it is not general yet, and is not likely to be for another week. The ground is still cold, and frost occurs nearly every night. The days are pleasant and warm, and the soil is dry enough to work, but farmers have learned from experience that seeding too early is some times not the best. If one waits until the weeds start, then a good cultivation just as the seed goes into the ground helps to control the weeds and gives the crop a better chance.

Best seed and fertilizer are going out from the Factory warehouse now, but the movement is not heavy, and will not be for another week yet. A right good soaking rain storm before spring work is really started would be welcomed by everyone as there is very little surface moisture, and from the reports from cellars and basements, usually flooded at this time of the year but practically dry now, the subsoil moisture is limited and a good storm would help the situation.

Paint up, clean up and dig up will be the slogan of most of us for a few weeks now. These improvements make for a better looking town and our impression on the visitor is about the only thing we have to sell him.

## First Ward Drama Tonight

"The Closed Door" a three act play directed by Dean Rolfsen and Miss Bird Mendenhall and presented by the 1st Ward Mutual is being staged tonight.

This is reported to be a fine play and a very good cast has been assembled for its presentation.

The performance will commence at 8:30 p.m. and everyone is invited.

### NEWS NOTES

Miss Byrd Mendenhall of Raymond visited with Miss Maxine Hodgson from Friday to Sunday.—Faber Times.

Pres. T. Geo. Wood left Monday morning with Mr. and Mrs. Floyd Wilde of Welling to attend Conference in Salt Lake City.

Miss Dorothy Nurse, who is attending the Henderson Secondary school in Calgary was in Raymond Sunday on a short visit, returning that night.

At the re-organization meeting of the St. Mary's School district following the resignation of R. M. Christie, who has been Chairman since the formation of the large district, W. E. Low of Kimball was elected in Mr. Christie's place, and N. W. Peterson of Welling was chosen Chairman by the board at its recent meeting. Our congratulations to Nels.

If Yugoslavia balks Hitler's plans, he is going to have a big ger headache than most of us realize. His dreams of full use of the Danube for transporting troops and supplies will only be a nightmare, and if he starts troops through the country against her desires, the mountain passes will furnish a splendid opportunity for attack from the tops of the deep valleys through which communication lines run.

## Help The War Service Drive

### ONE DAY'S PAY

Bill is a working man—one of us doing his bit to help win the war. There are hundreds of thousands like Bill in Canada.

Bill is backing the boys who left their jobs and homes to fight. And he's got it all figured out. One day's pay a year, which works out for him at exactly 10 cents a week. He had to admit that wasn't much—especially when the chap he was talking to said he was giving 20 cents a week.

Incidentally his friend could not give \$10.40 in one lump, but he found out he could make it in easy payments—some when the canvasser called, and the rest later. (The card the canvasser carries explains how).

### "FROM US TO THEM"

If everybody in Canada supports the Canadian War Service Fund as Bill is doing, the SIX organizations united in the one drive this year will get

their objective.

If they do that, these organizations, The Y.M.C.A., The Salvation Army, The Knights of Columbus, The Canadian Legion, The Y.W.C.A., and The I.O. D.E., will be enabled to continue their work of providing the little things that the soldier, the airman and the sailor would not otherwise get.

This is the ONE time this year when every Canadian can give something that goes direct to our Canadian boys in uniform. It may be only a hot cup of coffee and a doughnut—costing a fraction of a cent—then again it may be a word of fatherly personal advice we couldn't put a price on.

An organization meeting will be held next Wednesday at the Town Hall at 7 p.m. and the President and Secretary of all civic and church organizations, and service clubs are asked to be present. E. H. Wagstaff is local Chairman.

## Basketball Playoffs

Saturday and Monday nights, and Tuesday if necessary, the Raymond Union Jacks will play hosts to the Winnipeg St. Andrews in the Western Canada Basketball Finals. The winner of this best two out of three series will journey to Vancouver to play the British Columbia winners, to see who will represent the west in the Dominion playoffs. We hope and believe it will be Raymond's own Union Jacks.

This series here will bring to gether the best of the Prairies. Regina dropped out and the winners of Manitoba and Alberta will toss up here to see who goes on. In our opinion the current edition of the Jacks is the strongest offensive and defensive team we have had in a number of years. They are capable of forty minutes of sizzling basketball and they can match wits with the best of them when it comes to different tactics on the floor. While none are outstanding individually, together they make a combination that are very hard to beat as many road teams have discovered this past winter.

Whether you are a basketball fan or not, you definitely owe it to the sponsors of this series to see that the Opera House is packed to the doors for all the games. When you consider that our Association is responsible for the expense of this team from Winnipeg to Raymond and return, you will see that they need 100 p.c. backing. Tickets are on sale at Vels' now, and if you want one you had better step lively.

See you Saturday night.

## Two Day Stampede, July 1st. And 2nd.

Regular Board of Trade meeting was held Monday night with only a fair number in attendance. Pres. J. W. Evans was in the chair. Minutes of last meeting were read and approved.

Road committee reported that matters pertaining to the Craddock road were still in the correspondence state. The M.D. of Sugar City had agreed to spend as much as \$10,000 on the Raymond-Craddock road, provided the Provincial Government would match this amount. The committee had a promise from the Hon. Mr. Fallow that he would be in the south soon and would go over this piece of road with the committee and the district engineer.

The Improvement campaign was discussed some, and Chairman Frank Taylor and his committee, with the same membership as last year, was asked to meet and outline the campaign again, and go ahead with it. It was suggested that definite divisions, as house improvements, new and better fences, better trees, shrubs, flower gardens, and so on. The committee will decide these details.

The annual Stampede was discussed at some length. A previous meeting decided and voted

## Successful Scout Rally Held In Raymond

### NEWS NOTES

Word received by parents last week announced that Billy Rode back and Sid Romeril who have been in training in Calgary for a couple of months past had been sent east with their unit.

We wonder what Mussolini thinks of the invincible Italian fleet after its encounter with the British sea hounds at the week end. It appears that this fleet was Il Duce's weak end all the time.

C. R. Wing, Bishop J. O. Hicken and party left Thursday afternoon last to attend the Annual Conference of the L. D. S. Church, in session in Salt Lake City this week-end.

United States is being told off plenty now by Axis authorities following the seizure over the week-end of 70 Axis ships to prevent their wholesale sabotage destruction by their crews. Armed forces of the U.S. carried out the orders.

Members of the family present for the services from out of Raymond were, Roy, a brother from San Francisco, Edna, a sister from Salt Lake City, and his two sons Harding and Linden from Salt Lake, Mr. and Mrs. Gordon Brewerton of Calgary. Members of the theatre fraternity from Lethbridge and Calgary were also in attendance.

Elders D.A. Bennett and Wm. Anderson were the speakers at the Second Ward Sacrament meeting Sunday evening. Elder Bennett speaking on Welfare work and Elder Anderson on some of his experiences in the Youth Training Schools throughout the Province. The M.I.A. Chorus which had sung in Stake Priesthood furnished several special musical numbers.

## Italian Fleet Again Hammered

Britain's naval units of the Mediterranean again struck deadly blows at the Italian fleet over the week-end, damaging a large 35,000 ton battleship, two cruisers two three destroyers sunk and other smaller craft sunk or damaged, and then the British steamed back into port without the loss of a single surface craft or any men. It was a glorious day for the sea dogs and shows that the same spirit that immortalized Nelson, Wellington, Drake Kitchener and other British officials of the past is with the modern fighters of the British forces on land and sea.

Aided by the fleet air arm, whose airplanes spotted the Italian units and then by bombing the big 35,000 ton ship slowed it down to about half its speed and gave the British fleet a chance to catch up. They sailed in and with broadsides from their fifteen inch guns, they raked the enemy ships. It is reported that after the British ships felt they had done their day's work and had turned home the bewildered Italians were firing at each other, thinking they were fighting the enemy. The British picked up some survivors, but bombers of the Nazi forces harassed them until they had to stop so they wirelessed Italian officials to go out and pick up their survivors and went back into port to rest. Next day thousands of British seamen bowed their heads in prayer and thanks to the Supreme Admiral for His protection and for their success.

The second Scout Rally of the Raymond-Magrath District was held in the Opera House Saturday night last and was very successful in everything but attendance, the crowd being rather small for such a fine program as had been worked out.

The evening was opened by a selection from the Magrath Band, and the "March Past" by all the Scouts and Scouters, and after the friendship circle had been formed John D. Giles, boy leader from Salt Lake City, Pres. T. Geo. Wood, of the Taylor Stake, Pres. E. J. Wood of the Alberta Stake, S.O. Low, President of the Alberta Stake M.I. A., John F. Salmon, President and Wm. Redd, Vice President and other Scout officials were called into the circle and introduced by Commissioner C.S. Matkin, who presented Elder Giles with the service badge for his work for boys.

The contests started then including races of various kinds, with teams from each troop, points being given for each event. In the contest the Raymond First Ward won the Scout shield, and the Second Ward of Raymond Explorers won the Explorers shield the presentations being made by Elder Giles who complimented the boys and urged them to continue being good active Scouts and regular fellows.

Knot-tying, signalling, first aid work and such demonstrations showed the every day value of Scouting, and the tumbling act by the Raymond 2nd Ward Explorers held the interest of the crowd and showed the physical development the boys are getting in their work.

The concluding number was a tableau-pagant on the life of the late Robert Baden-Powell showing the inception of Scouting and the life of service devoted to it by its founder. The reading of this story held the crowd in rapt attention.

Commissioner Matkin was assisted by T. W. Meldrum and all the Scout and Explorer leaders of the Stake, and after getting started, the program moved off nicely to a fine climax.

Melvin T. King was announcer for the evening. The presence of the Magrath Band added to the enjoyment of the evening and they are to be complimented for their fine work in this direction.

Mr. Egan of the Interior Benefit Association of Vancouver, selling Group Insurance was in town Monday.

## Lethbridge Enters Hockey Finals

Congratulations to Lethbridge Maple Leafs. Wednesday night they done what is seldom done, won their third straight from Trail Smoke Eaters, and the right to enter the Western Canada Finals, and will meet Regina Rangers next. Incidentally, the Rangers are coached by Freddie Metcalf, who piloted Lethbridge for two years.

Playing one draw in Trail, being beaten two straight, the Leafs made a glorious comeback and won three in a row to clinch the title. Trail was minus the services of Mike Buckna on Wednesday. He has played great hockey on the forward line, and his absence undoubtedly weakened the team, but it would have taken a great team to best the Lethbridge boys this way they were playing Wednesday night. Again we say, congratulations to Lethbridge and may the Allan Cup find a resting place this season in Alberta.

### THE GOVERNMENT'S WHEAT POLICY

The Government's plan to permit a maximum delivery of 230 million bushels of wheat (about 223 million for the West) for the crop year 1941-42 will mean a reduced wheat income to Western Canada for the coming crop year of probably 133 million dollars.

Recognizing that such a reduction in income is more than the West can bear, the Dominion Government proposes to give compensation to prairie farmers. The exact amount and nature of the compensation cannot, however, be determined until the Government policy is further explained and clarified.

One Government statement is that the West will need a total income from all agricultural products of 325 million dollars. The similar income for this present crop year 1940-41 will amount to about 408 million dollars.

Even though compensation of one kind or another is paid to prairie farmers to bring their total revenue up to 325 million dollars, this would still mean a revenue for the coming crop year 1941-42 of 83 million dollars less than the farmers received for the same products for this present crop year 1940-41. The loss of 83 million dollars in one crop year would certainly bring considerable hardships to the West. The farmers themselves would probably manage somehow to get along, but after farmers had paid their expenses for living and production there would be very little money left for creditors for the payment

of Dominion taxes, for the purchase of War Savings Stamps, War Savings Certificates, War Bonds, for subscriptions to the Red Cross, and for the support of other war activities; for it is to be remembered that even the revenue of this present crop year of about 408 million dollars was none too great. It certainly did not afford our farmers on the average anything approaching luxury purchases.

During the past 60 years our prairie farmers have added from wheat alone some 10.7 billion dollars to the economy of Canada. In view of this, and of the great value from a military point of view of the present surplus of wheat—an important munition of war—made available to Canada and to Britain at a very low cost, and in view further of the exceedingly high hourly rate of wages being paid to industrial workers in manufacturing plants making munitions and equipment for the Government, it certainly seems as though our farmers are entitled to the most generous consideration by the Dominion Government. It certainly seems, too, that it would be in the national interest, during this war time, to maintain our farmers and the whole economic structure of the West in a financially healthy condition so that our wheat growers and our whole wheat industry can, after this war, continue to make the same valuable contribution to the economy of the whole of Canada as they have done in the past 60 years.

(Searle Grain Company, Ltd.)

### WHAT DO FARMERS THINK?

The "Social Credit" government of Alberta, first elected in 1935 on promises of lower taxation, free monthly dividends and "a lower cost to live," has failed to make good any of these pledges and after over five years in office. Although this war is making unprecedented demands on taxpayers' pocket-books, it also finds itself unable to reduce the taxation which it

### SERVICENTRE GARAGE

has raised to the highest level in the history of the province.

But it finds provincial finances in such good shape that it can restore to the premier and his colleagues the deductions made in recent years from their salaries. It has decided that the increased cost of living justifies placing the premier's salary at \$10,300, plus the numerous perquisites that goes with the job, such as railway and telephone passes, a free car, free trips to Ottawa, etc.

And that zealous watchdog of the provincial treasury, Mr. Solon Low, finds his own salary from the province increased by \$800 a year through the restoration of the salary scale paid when there was no war on and no glut in the sale of Alberta wheat.

What must the farmers of this province, suffering from the low prices of wheat and faced with a federal order to reduce their wheat acreage, think of this "social credit" move? They are in no position to expect a return to their former income and scale of living. Many of them voted last March for another term of this experimental and selfish administration. They must be doing a lot of hard thinking these days.

Ever since the Aberhart government went into office, there has been in evidence a strong spoils spirit. Many of its supporters have been appointed to the public payrolls which have been greatly swollen and many

government members have been appointed to this or that government commission at so much a day. Some of them are still members of the provincial "social credit" board. The main achievement of the treasury branch scheme to date has been the creation of hundreds of jobs for party followers.

Again it may be asked, what do the hard-pressed farmers of the province think of all this? It is reflected in the higher tax-

You Roll Them Better With  
**OGDEN'S FINE CUT**  
CIGARETTE TOBACCO

The baby of Dr. and Mrs. F. M. Hall received a nasty cut under her chin Wednesday evening when she fell out of a chair. It required twelve stitches to close the wound. She is doing fine now.

The regular meeting of the Sugar City Municipal Council, was held in the office Tuesday afternoon, April 1st. According to Reeve Peterson the routine business of the district, and the passing of the monthly accounts occupied the time of the meeting. A full attendance of members was present.

Lethbridge Maple Leafs took the bit in their mouths and set the Trail Smoke Eaters back two straight on Saturday and Monday nights to tie up the series at the end of five games and make a sixth game necessary. This was somewhat of a surprise to fans throughout the south who feared that the two wins by Trail would break the morale of the Leafs.

A certain officer's confidential report had written on it by his commanding officer: "This officer should go far."

The Brigadier added: "The farther the better," and finally the Divisional Commander wrote "He should start at once."

# What's the Word from Home?

Your rousing response to this united appeal will be the cheeriest word you can send him

● Private John Smith is through with drill and duties for the day.

He is tired, maybe a bit "fed up." He is far from home and lonely.

He longs for a dash of gaiety, a bit of cheer... yearns, perhaps, for a homey nook where he can read, play games, listen to the radio, write to the folks back home.

It is the job of these six organizations to see that discomfort, boredom, loneliness have no place in the precious leisure moments of our men in uniform. Wherever they go these services go too, come bomb or battle.

In camp, on the march, on the ranges, these services bring them hot drinks and snacks, smokes and other comforts. Recreation centres are set up... sports and entertainment organized... reading and writing materials supplied. Comfortable canteens provide extra food. There are educational facilities. Hostess houses enable the men to enjoy healthy social contacts.

### Understanding, Experience and Dollars!

Understanding hearts, organization and experience backed by your dollars can do the job effectively.

Let the volunteer helper who calls on you carry back your pledge of fullest support for our fighting men.

You never have failed them—you will not now.

## WHEN DEATH WON THE RACE

During the past year 133 persons were killed and 485 were injured in 346 railway grade crossing accidents in Canada.

Sixty-eight of these accidents, taking the lives of 43 persons in the aggregate, occurred at crossings where protective safety devices were in operation.

More than half of the total accidents took place in broad daylight under good visibility conditions.

One hundred and one accidents were caused, not by a train striking an automobile or truck, but, incredible as it may seem by motorists running into the side of the train.

Carelessness on the part of the motoring public is largely responsible for this appalling toll of death on Canada's railway crossings. The urge to hurry, to take a chance, to plunge ahead without a thought for elementary safety precautions, comes high in what is often a losing race with death.

Commencing with this issue, The Recorder, in collaboration with the engineering department of the Canadian Pacific Railway, will publish a graphic series of photographs and diagrams illustrating the cost of carelessness, in an attempt to lessen the toll of tragic and unnecessary accidents.

## WEEKLY LETTER

## SOYBEANS

Soybeans have been under test at the Lethbridge Experimental Station for many years. In the early years they were looked upon as a crop which showed little or no promise for Alberta on account of the coolness of the season, and the early fall frosts, but tests were continued in the hope that with improved varieties and improved methods of growing them it might eventually be that they could fill an important place as a specialized crop for irrigated land. The last five seasons have been more favourable for soybeans than those previous to that time, as the frost-free period has extended later into the fall. During that period also new varieties have been developed which are quite superior to those used formerly. The results obtained with soybeans at the Lethbridge Station on irrigated land in recent years have, therefore been much more encouraging, and indicate that there is justification for increasing the acreage of soybeans at present, provided the seed can be marketed at a satisfactory price. This expansion of acreage, however, should take place only in the southern and southeastern parts of the province, where the weather is hottest and the frost-free period is longest.

The growing of soybeans fits in very well with the growing of sugar beets as the sugar beet drill and cultivator can be used for the seeding and cultivating of them. They can be seeded immediately after the seeding of sugar beets is completed and

harvested before the harvesting of sugar beets commences. Either the binder or the combine can be used for harvesting.

Wisconsin Early Black and Manitoba Brown are the two earliest varieties which have been tested at the Station. Unfortunately, they have two bad disadvantages in that they shatter badly if they are allowed to stand any length of time after ripening, and on account of being dark in colour they make a dark coloured oil, which is undesirable. Kabott, a new variety, on the other hand, shatters very little and is satisfactory from the standpoint of colour. It is practically as early as the two above-mentioned varieties. Varieties such as Mandarin, O.A.C. 211, etc., which are grown extensively in Eastern Canada, have been found decidedly too late at Lethbridge.

From the yields obtained in small plot tests at the Station, and also from plots two acres or more in size, it would appear that on irrigated land soybean crops in the Lethbridge district should be expected to yield twenty bushels or more under average conditions. Tests with soybeans on dry land have been too limited to warrant giving any statement as to what yields should be expected.

## DEPARTMENT OF AGRICULTURE NOTES

## BRITAIN NEEDS MORE DAIRY PRODUCTS

The Dominion of Canada has contracted to supply the British Ministry of Food with larger quantities of cheese and condensed

milk during the 1941 season. To meet Britain's requirements and at the same time supply the domestic markets, it is calculated that Canada must increase its milk supply by 600,000,000 pounds, or about 4% over the 1940 figures.

This means that Canada's 4,000,000 cows must each give an extra 150 pounds of milk to supply this need.

The Dairy Branch of the Department of Agriculture suggests the following methods by which the production of dairy cows may be profitably increased:

Conditioning dry cows now, in order that milk production be at a maximum when the cows freshen.

Providing good pasture for milking cows. A permanent pasture of grasses and legumes offers the best solution but for 1941 it will be necessary to provide an annual pasture of oats and fall rye or sweet clover to supply succulent feed during late summer and early fall when native pastures often fail.

Rotating the milking herd on the best pasture available. It is suggested that the herd be divided, and the pasture separated into three sections. Milking cows should graze each section first, to be followed by the young and dry stock. This will allow the third section a period of 10 days or so to produce a luxuriant growth before turning in the milk cows. Electric fences offer an inexpensive method of dividing the pasture field.

Controlling the Warble Fly menace. Now is the time to treat the backs of all cattle with a Derris wash or powder to destroy the grub. The Department of Agriculture will gladly assist in organizing a Warble Fly control campaign in your district. For further information on this subject, write the Live Stock Branch, Department of Agriculture, Edmonton.

These few suggestions will not only help to supply Britain with additional dairy products, but they will help solve that troublesome wheat acreage and increase profits from your dairy herd.

## When Death Won The Race

Beginning today, The Recorder in collaboration with the engineering department of the Canadian Pacific Railway, presents a graphic new series, in photo and diagram, in its campaign to halt the appalling toll of railway crossing accidents, which took 133 lives in Canada last year. One almost incredible feature of the 1940 death list was that out of a total of 346 accidents, 101 were caused by the auto or truck involved actually running into the side of a speeding train, as illustrated above. Elementary caution in approaching the crossing would have averted a fatal crash.

GET THE FACTS! AND YOU'LL GET A FORD!

IT'S THE **BIG CAR** with the **THRIFTY Engine!**

Have you seen the Ford... the big new 1941 Ford. In actual feet and inches it's the roomiest car in its price class. Greatest inside length! Greatest total seating width! Extra knee-room and head-room! Wider doors! Larger windshield! A spring-base that's inches longer.

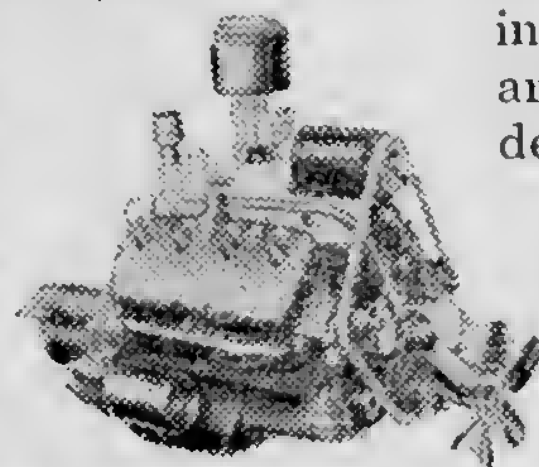

It's the big car with the thrifty engine. Only Ford, at this price, is powered with an eight. Eight cylinders for smoothness as in America's highest priced cars. Gasoline economy, that has outstripped all competition in its class, in one official contest after another. Long life and reliability that

persuades Ford owners to buy one Ford after another.

What's more, the 1941 Ford has that big car "feel"—that road-hugging stability on the curves or on the straightaway.

This year Ford riding qualities are a revelation—a completely new ride made possible by "Slow-Motion Springs," plus improved shock absorbers, new stabilizer, a more rigid frame.

Ford prices are still lowest. Get in touch with a Ford dealer and see what an attractive deal he is willing to offer.

\$35 a month with reasonable down payment buys any Ford V-8

## THREE LITTLE WORDS

"What does the bride think when she walks into the church?"  
"Aisle. Altar. Hymn."—U.S. Coast Guard Foretop.

## UNIMPORTANT

It was his first experience as a shop assistant. "Have you an account here, ma'am," he asked, after looking at a customer's order.

The assistant walked across to where the manager stood. "A lady of no account to see you, sir," he said.—Pasadena Post.

Ten different varieties of hard red spring wheat are officially recommended for use in various parts of the prairie provinces. As a result of extensive experimental work, it is known fairly well to what conditions each variety is adapted. In each of the three provinces, a Cereal Variety Zonation Committee is responsible for making official recommendations as to the varieties which should be grown in each district. These recommendations should be used as a general guide in making a choice. It is, of course, recognized that there are local districts to which varieties not officially recommended may be well adapted. However, it is wise to follow the official advice unless there is a very good reason for not doing so.

Seven varieties of oats, eleven of barley and three of flax are to be found on the recommended lists.

In order to assist government institutions in making the necessary information readily available to farmers, all grain buyers of Line Elevator Companies associated with the Agricultural Department have been provided with printed copies of cereal variety recommendations.

In order to secure maximum returns, it is necessary to use pure seed of the right variety.

So long as supplies last, copies of recommendations may be obtained from:

Manitoba—Extension Service, Department of Agriculture, Winnipeg.  
Saskatchewan—Extension Department, University of Saskatchewan, Saskatoon; Field Crops Commissioner, Department of Agriculture, Regina.

Alberta—Field Crops Branch, Department of Agriculture, Edmonton.

Administrator.

### TO ASSIST GREECE

Supplies amounting to \$25,000 are being shipped to Greece by the Canadian Red Cross Society, Norman Sommerville, chairman Central Council, announced yesterday. These will help replace materials the Greek Red Cross had to divert from war work to alleviate the suffering caused by the recent earthquake, he pointed out. The Society received an appeal for aid from the Greek Red Cross and had responded at once by ordering shipments of woollen comforts, medical and hospital supplies. Care of the 40,000 Greeks made homeless by the disaster has been a heavy drain on the Greek Red Cross supplies and the situation was complicated Greek Red Cross supplies and

by indiscriminate Italian bombing of the destitute victims in the earthquake area, Mr. Sommerville said.

The Greek War Relief Fund has also forwarded \$100,000 to the Canadian Red Cross with the request the Society purchase relief supplies on their behalf, Mr. Sommerville stated. The Fund is being used to buy ambulances, bandages, surgical instruments, sterilizers, X-ray equipment, cod liver oil, Vitamin C, serum and iodine.

Twenty carloads of supplies for Greece have already been turned over to the British Red Cross by the Overseas Committee to replace materials the

British organization lost through bombing just prior to shipment. The contribution comprised large quantities of hospital supplies and woollen comforts including 20,508 surgical towels, 49,040 sterile dressings, 12,135 scarves, 14,499 pair socks, 10,732 rolled bandages, 5,000 pill-boxes, 2,000 blankets, 5,588 caps and sweaters and other garments.
